

RUBESH R - Full-Stack developer , Penetration Testing

Phone: +91-9042847832 | Email: rubeshr000@gmail.com

GitHub: github.com/RRubesh | LinkedIn: linkedin.com/in/rubesh-r-

PROFESSIONAL SUMMARY:

Motivated B.Tech Information Technology student with a strong foundation in Full Stack Development, and Penetration Testing. Skilled in building responsive and scalable web applications using React.js, TypeScript, Tailwind CSS, and backend technologies. Proficient in programming languages such as Python, and JavaScript, with hands-on experience in secure software development, vulnerability assessment, and security testing methodologies. Passionate about ethical hacking, secure coding practices, and developing innovative technology solutions. A quick learner with strong problem-solving skills, analytical thinking, and the ability to adapt to emerging technologies.

TECHNICAL SKILLS:

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend & Tools: FastAPI, Python, SQL, Docker, REST APIs, Git & GitHub

Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Quick Learner

Languages: English, Tamil, Telugu

PROJECTS:

QR-Based Smart Laboratory Asset Management System

React + TypeScript + Tailwind CSS | Frontend Developer

- Built a responsive React + TypeScript frontend with QR code-based laboratory asset tracking.
- Features include asset details, maintenance records, and an interactive dashboard.
- Mobile-friendly UI designed using Tailwind CSS for optimal usability across devices.
- Implemented QR code scanning for real-time asset identification and management.

AI Bug Hunter

FastAPI + React + Docker + Ollama LLM | Full Stack Developer

- AI-powered Static Application Security Testing (SAST) platform for vulnerability detection.
- Built with FastAPI backend, React frontend, SQLAlchemy ORM, and Docker containerization.
- Integrated Ollama LLM for intelligent code analysis and automated security report generation.
- Detects code vulnerabilities and generates detailed, actionable security reports for developers.
- Designed intuitive React UI for uploading code, viewing scan results, and managing reports.
- Deployed using Docker for consistent, scalable, and portable application environments.

EDUCATION:

- 2024- 2028 | Jeppiaar Institute of Technology | B.Tech in Information Technology (Currently: 3rd Year)
- Higher Secondary Certificate (HSC) - Government High School
- Secondary School Leaving Certificate (SSLC) - Government High School

ACHIEVEMENTS:

- Built multiple production-ready React frontend projects with modern UI/UX principles.
- Strong interest and hands-on experience in cybersecurity and AI-integrated applications.
- Active GitHub contributor with consistent open-source project contributions.
- Developed full-stack applications integrating REST APIs, Docker, and LLM technologies.
